

## ***BSc/BSc (Hons) Professional Studies in Nursing: Enhancing Palliative and End of Life Care Module***

Glasgow Caledonian University (GCU) offers a variety of Continuous Professional Development modules for those interested in Palliative and End of life care or working within the Palliative care sector. An example of this is *Enhancing Palliative and End of Life Care* module delivered in partnership with St Andrews Hospice. This module is suitable for a range of professions and roles and can be taken as a stand-alone module or as part of the *Clinical Nurse Specialist Graduate Certificate* within BSc/BSc (Hons) Professional Studies in Nursing Programme.

**Module Description:** This online, blended learning module will introduce students to the concepts of palliative and end of life care, appraising relevant contemporary evidence as part of this learning journey. The care and support of patients with common advanced malignant and non-malignant conditions will also be considered in the context of palliative and end of life care delivery, supporting knowledge and skill development. This helps to ensure that students underpin holistic assessment, shared decision making and care planning with appropriate evidence upon successful completion of the module.

**Classification:** 20 academic credits, SCQF levels 9 and 10.

**Course Delivery and Duration:** 12-week online delivery. Module timetable for Monday of each week from 29<sup>th</sup> January 2024. Delivery subject to minimal numbers.

**Course Mode:** Online blended learning

**Course cost:** Stand-alone module £303 per candidate

**Minimum Entry Requirements:** Subject to module leader approval.
